The 8th edition, newly updated and expanded, offers concise descriptions, current case studies, and new pedagogical materials to help readers make sense of global finance. Introduces international finance to readers with diverse backgrounds who want jobs in international investment, international banking, and multinational corporations. Describes a nuanced view of international finance by drawing on material from the fields of theoretical finance and international macro-finance. Features 100% revised chapters, new pedagogical content, and online supplementary materials.
