

This widely used practitioner resource and course text provides an engaging overview of developmental theory and research, with a focus on what practitioners need to know. The author explains how children's trajectories are shaped by transactions among early relationships, brain development, and the social environment. Developmental processes of infancy, toddlerhood, the preschool years, and middle childhood are described. The book shows how children in each age range typically behave, think, and relate to others, and what happens when development goes awry. It demonstrates effective ways to apply developmental knowledge to clinical assessment and intervention. Vivid case examples, observation exercises, and quick-reference tables facilitate learning.

Morning Star - Scholars Choice Edition, The Care and Handling of Art Objects: Practices in the Metropolitan Museum of Art, Nightrose, The Power Of Now: Practice It And Attain Enlightenment, For All Time (A Nantucket Brides Novel), Periodontics & Restorative Maintenance: A Clinical Atlas, The Frankpledge System, Regulating for Competition: Government, Law, and the Pharmaceutical Industry in the United Kingdom and France (Government-Industry Relations),
