

When Andy sneaks out of the house to meet a girl he'd been trying to secretly date, he's disappointed when she doesn't show up. Instead, he wanders through the forest, stumbling upon a den of alpha male wolves that aren't happy to find the young human male in their midst. Before they let him go, though, the pack shows Andy that he doesn't need a woman to satisfy his carnal desires. Andy's never thought of himself as gay before, but something about the sexy, naked pack of half men makes him willing to experiment, and it's a decision that may change his destiny! After all, what's better than one hot and hunky man? How about four of them at once?
