

In this long-awaited new novel in The Halfblood Chronicles, fantasy greats Norton and Lackey tell the enthralling story of the reclusive elvenlord Kyratian, who emerges as a hero in a world torn by politics and war. When his cousin, Aelmarkin, tries to prove that Kyratian is unfit to run his estate, the plan backfires, and soon Kyratian, who doesn't share the venal, greedy nature of his cousin, finds himself with more power than he ever wanted. Like his father before him, Kyratian has always treated the humans on his estate like servants, instead of enslaving them as other elvenlords do. His father's legacy also leads Kyratian to learn ancient military skills long since lost to elvenkind through the carelessness of the elvenlords. Kyratian's rediscovered knowledge piques the interest of the current elvenlords, and soon Kyratian finds himself appointed the new commander of the army, to the relief of his ruling peers. For the sons of the most powerful elvenlords, the Young Lords, have rebelled against their fathers and are waging war. But by taking advantage of both the privileges of his new command and the help of some unexpected new friends, Kyratian finally gains the resources to embark on his own, personal quest--resuming his father's search for the Great Portal, the magical doorway through which the original elvenlords entered this world. As war rages between some sons and fathers, Kyratian searches desperately for his own lost father, hoping to uncover not only the mystery of his disappearance, but also the secret behind the origin of elvenkind.
