

Bestselling Vampire Romance Series The Firsts introduced the First Blood Vampires, unique upon the earth. How did they come to be? Where did they come from? This novella presents the origins of the First Blood vampires on this new world. This tale takes us back 6000 years to a time when mankind began civilization on this new world. Someone in the universe knew that the day would come when the world would need guardians. The universe had a plan...They had died, gone to their eternal resting place. Now, awakened again in a new world, naked, with strangers, they had no idea why. The days that followed revealed a plan put in place by the powers-that-be that led events in the universe. The final survivors of their dying world, a group of shocked people discover that apparently death isn't forever. They would build their lives again, but this time, something else has plans for them. These are the parents of the First Bloods, the days of the beginning of magic on earth...origins of a race with great destiny to protect life. It appears that were not alone after all. For those not familiar with this Bestselling series, you may want to take a look back at C.L. Quinns First Blood series that begins with the book Forbidden Days and circles back to these days thousands of years earlier as we finish the tale of the guardians of earth.
