

Readers and reviewers applauded Suzanne Chazins debut, *The Fourth Angel*, and its heroine, Fire Marshal Georgia Skeehan. Chazin dazzles with her knowledge of pyrotechnics and comes up with plot twists aplenty, raved *People*. In this new novel, Georgia investigates the deaths of two doctors, both victims of fires that show signs of a flashover-the overwhelming combustion of a room and its contents by simultaneous ignition. She suspects the connection between them might be that each worked on the board approving line of duty compensation for disabled firefighters. Georgia is grasping for straws when the bottom of her life drops out: her best friend, a woman detective with the NYPD, disappears, and the man found in the woman's blood-spattered apartment is Georgia's boyfriend and fellow marshal, Mac Marenko. Betrayal-both private and professional-has never hit so close to home. Georgia finds frightening evidence that greed and deception are the cause of these recent deaths and perhaps one more to come-her own.

9 Oct - 5 min - Uploaded by OakRidgeFD The Oak Ridge Fire Department shows you how fast a fire can grow. If you don't have a Home.

Flashover definition is - an abnormal electrical discharge (as through the air to the ground from a high potential source or between two conducting portions of a . Captain Homer Robertson reviews the conditions that lead to flashover and how firefighters can develop the awareness of these conditions and change tactics. In this video clip, Associate Professor Charley Fleischmann from the University of Canterbury describes how flashover and backdraught occur. Based on the numerical results, the correlations for flashover occurrence condition are established, in which the fuel surface area and the temperature factor are. Flashover and backdraft have been confused for years.

Definition. A flashover is the near simultaneous ignition of all combustible material within an enclosed area. When many materials are heated.

Abstract. A flashover occurs when a fire spreads very rapidly through crevices due to intense heat. Flashovers present one of the most frightening and.

To understand how to get out of a flashover, we must first understand what a flashover is. NFPA defines flashover as, A transitional phase.
