

The power he needs to protect his friends and family is just outside of Alec Graves reach. The dominant shape shifter pack in North America is circling like vultures and there are other, more savage opponents approaching in the distance. Given the danger hes in, Alec doesnt have time for a broken heart, but Adris departure has left him barely able to function. The pressures inside his pack are building to lethal levels and for the first time in his life, hes not sure he can walk the path that honor demands of him. Walking out on Alec was the hardest thing Adri had ever done, but she didnt bargain for the long-term impacts that would be involved. She hasnt been able to get past her feelings for him yet and its starting to impact nearly every aspect of her life. Even more concerning, she now knows what the darkness really hides. Dangers that she thought shed left behind in Sanctuary are stalking her again, but this time Alecs pack isnt in a position to protect her.
