

In 1953, the brilliant but terrifying titan of cinema John Huston summons the young writer Ray Bradbury to Ireland. The apprehensive scribes quest is to capture on paper the fiercest of all literary beasts -- Moby Dick -- in the form of a workable screenplay so the great director can begin filming. But from the moment he sets foot on Irish soil, the author embarks on an unexpected odyssey. Meet congenial IRA terrorists, tipping men of the cloth impish playwrights, and the boyos at Heeber Finns pub. In a land where myth is reality, poetry is plentiful, and lifes misfortunes are always cause for celebration, Green Shadows, White Whale is the grandest tour of Ireland youll ever experience -- with the irrepressible Ray Bradbury as your enthusiastic guide.
