

Inflammation of liver is usually referred as Hepatitis which may be caused because of different viruses, bacteria or drugs etc. Hepatitis is one of the most 10 reportable diseases in Pakistan. The World Health Organization (WHO,2005) has estimated that 10 million people are suffering from Hepatitis in Pakistan. Unsafe drinking water, unscreened blood transfusion and the rampant use of used syringes have spread hepatitis, making it one of the biggest concerns for the country's health managers. Millions of Pakistanis have been infected with the deadly virus, but no public department or agency has accurate information about the number positive cases. Health professionals and government officials give conflicting statements about the prevalence rate of Hepatitis C and its probable causes in socio-economic scenario in the country which laid down the objective of this study.

First Aid for the® Wards: Fourth Edition (First Aid Series), Oracle JDeveloper 10g for Forms & PL/SQL Developers: A Guide to Web Development with Oracle ADF (Oracle Press), TCP/IP Protocol Suite 4TH EDITION, Employee Training and Development with Powerweb Card 3/e, New York Cop and Other Investigations: A Resource Book for Mathematics Teachers, Civil Aircraft Markings 1950 (Ian Allan abc),
