

In this book, a leading mathematics educator brings together proven strategies overcoming math anxiety and succeeding in any college or university mathematics course. He begins by introducing key learning strategies for maximizing performance. Next, he discusses techniques for effective preparation. Discover how to make the most of class time, make more effective use of textbooks and self-study manuals, maximize performance in assignments and homework, and get more help from your instructor. Learn procedures for effective problem-solving -- including how to solve word problems. The book includes a full chapter on the mathematics examination experience.
