

John Anselm is a former Beirut hostage, a war correspondent who went to one war too many. A burnt-out case, he lives in Hamburg, working for a semi-legal, near-broke surveillance firm and trying to come to terms with his past. Then into his life comes Con Niemand, ex-mercenary and professional survivor. Niemand has had the unluckiest break of his life – he has stumbled across evidence of a terrible secret and now he's on the run, the focus of a relentless high-tech manhunt across England to the remote Welsh mountains. Against his will, Anselm is plunged into a world of violence, betrayal and death. He must break out of his anesthetized life and pit himself against forces that he does not understand, forces determined to rebury a secret that can destroy reputations and lives across the globe.

Identity theory, in philosophy, one view of modern Materialism that asserts that mind and matter, however capable of being logically distinguished, are in. Type physicalism (also known as reductive materialism, type identity theory, mind-brain identity theory and identity theory of mind) is a physicalist theory, in the philosophy of mind. It asserts that mental events can be grouped into types, and can then be correlated with types of physical events in the brain. Background - Versions of type identity - Criticism and replies - Multiple realizability.

Identity theory may refer to: Identity theory of mind, a philosophical term; Pure identity theory, in logic; Social identity theory, a term from the social sciences. Henri Tajfel's greatest contribution to psychology was social identity theory. Social identity is a person's sense of who they are based on their group. Introduced almost thirty years ago, identity theory is a social psychological theory that attempts to understand identities, their sources in interaction and society. This definition explains the meaning of mind-brain identity theory and how it purports that there is no distinction between a person's mental.

in each of the theories, identity salience and the activation of identities as identity theory and social identity theory, we see how, in combination, they can move.

PDF Identity theories are those that hold that 'sensations are brain processes'. In particular, they hold that mental/psychological state kinds are.

The identity theory of mind holds that the intimate connection is identity: the mind is the brain, or, more precisely, mental states are states of the brain. The theory.
