

Eden has never fit in. He hears words that have not been spoken, and can see flashes of futures that may never come to pass. Out of his time, place and comfort zone, Eden lives inside his head, constantly haunted by the idea that there is something else. Something more. Running from those who would harm him, Eden breaks through a Divide believed only in myth and stories, and finds himself in another realm—a place, he soon discovers, he should have been in all along. Finding friends, love and completion for the first time in his life, Eden starts to wake up to who he is and sets his feet firmly on a path he can never turn away from, with his tall beautiful warrior-elf lover always at his side Hunted by those who would have his power, trying to hide from evil, Eden finds himself running through the realms in the hope he can escape his fate, lead the future down a path that will not see the worlds destroyed, and will keep Khari safe from a past that is raising its head once more.
