

Mientras hablaba en un homenaje que le hacian en la universidad a su padre, fallecido dos anos antes, Siri Hustvedt comenzo a temblar. Pudo terminar su discurso, aunque sus brazos y sus piernas se estremecian de un modo casi incontrolable. Era como si se hubiera vuelto dos personas, una oradora serena, y la mujer que temblaba. Los ataques se repitieron. Esta es la lucida cronica de la busqueda de un diagnostico y que hara que la escritora se interne en los vericuetos de la psiquiatria, la neurologia y el psicoanalisis. Participara tambien en un grupo de estudio en el que los especialistas buscan crear un nuevo campo, el neuropsicoanalisis, y dara clases en talleres literarios para internos de hospitales psiquiatricos. Tambien debera enfrentarse a cuestiones complejas como la relacion entre el cerebro y la mente o los mecanismos de la memoria. Un libro inclasificable, que se nutre de las memorias, las investigaciones, el trabajo social, y los intereses intelectuales de una novelista excepcional. /

Whilst speaking at an event held in honour of the memory of her father, who had died two years earlier, Siri Hustvedt began to shake. She finished her speech despite the almost uncontrollable trembling of her arms and legs. It was as if she had split into two people: a calm orator, and the shaking woman. This is the clear account of the search for a diagnosis that would result in the writer being admitted into the winding paths of psychiatry, neurology and psychoanalysis. Here is an unclassifiable book that nourishes itself on memory, research, social work and the intellectual interests of an exceptional novelist.
