

A most provocative business parable for our troubled times, LeaderShift is the story of how David Mersher, the successful CEO of IndyTech, sets out to discover why the United States is losing its leadership edge and what he can do to turn things around and make America truly great again. In the process, Mersher and his team learn how the Five Laws of Decline are eroding the nation's economy—quietly ruining businesses and big institutions—and what American executives and citizens need to do to put a stop to this. Above all, Mersher and his colleagues discover something few business leaders or citizens of free nations have yet to realize: Our world today is on the verge of a momentous LeaderShift, one which will reframe the twenty-first century and significantly alter the way we govern, lead, and do business. When Mersher and his team get help from a surprising source, the result is stunning and unexpected—and its one that concerned Americans will certainly reflect upon for decades to come. The next LeaderShift is almost here. Are you ready?
