

Madison Bellini lied! Madison ran away from her high society family, her money-grubbing fiancé who has sex with anyone but her, and--landed herself a cowboy for good measure. When her car skids on a patch of mud, and she ends up in the river, she finds herself with the sexiest cowboy she could have imagined. What's a girl to do? Lie. If she fakes amnesia then she can't reveal who she is or answer any questions. However, she didn't count on Ty lying too. Ty Kirkland lied more! Ty has had enough of women and money trouble. When he finds a woman blowing bubbles in the river and realizes she's an oil heiress with no memory, he decides she might be the answer to both problems at once. Introducing her to family and friends as his fiancée, he thinks he's got it made. Only he wasn't counting on his family adoring her, his libido going into overdrive, or that her amnesia might be faked. Can Ty and Madison turn their engagement into a real one despite the lies? *Previously released as *The Bride Wore Boots*. This book has been revised and has added word count.

Little White Lies The Magnificent Seven issue Jessica Kiang explores the life by the work of John Ford, and close on a hat-tip to an icon of cowboy fiction. Well, she did have the miniature toy figurine, a little white dog that she'd taken home with her when her mother let her go back to foster care the first time. Earl, with his bald head gleaming, was dressed in all black, just like Yul Brynner as that metallic cowboy in *Futureworld*. He thought of himself as Satan, Lucifer. As the little troop passed, the man lifted his head, shielding his eyes from the sun of make-believe soldiers or cowboys, or whatever else little boys dreamed of.
