

In September 1993, as the Second Amendment stood on the brink of disaster, our book, *Things You Can Do to Protect Your Gun Rights* was published. The gun rights movement, having fought a defensive, holding action in Washington since 1988, was under the greatest attack in history. Within a few months, the Brady Bill passed. As we expected, the passage of this reasonable law did not lead the anti-gun movement to moderate its demands; to the contrary, the anti-rights movement rolled out an even more ambitious agenda for choking the Second Amendment, and the media plunged into the greatest anti-gun feeding frenzy in American history. As with our first book, we hope that this book proves useful not just to Second Amendment activists, but to anyone who is fighting the good fight for freedom, humankind's oldest and noblest cause.
