

As children see things in our movie theaters and television sets, they are probably often left wondering why they are not able to see some of the scenery in their very own hometowns. This is when they begin to learn how large the world is, and what all is contained within it. A Mother Nature Is Awesome (From Volcanoes to Earthquakes) Picture Book will greatly help them to understand that there is much to see in the precious life of theirs. They will begin to learn about our Earths geological structures, and who knows? They may decide that they would like to grow up to work in the wonderful field of Geology!
