

A pulse-pounding page-turning mystery suspense thriller, with twists and turns that keep you guessing until the very end. Warning - Before you purchase this book please be aware that Murdering Lawyers is an extremely controversial mystery suspense thriller. The book contains strong sexual content, language, and violence which is critical to the plot. In the novel Murdering Lawyers you will find Marc Wilson, a jobless young attorney, once idealistic but now willing to bend a few rules to help his career. After a few minutes of dishonesty begin paying shocking dividends, he becomes a litigator at a prestigious international law firm, finds himself living in a luxury apartment, and enters into a romantic relationship with the boss's daughter - but not without paying a heavy price. Soon he is caught up with an ancient cabal committed to bringing the most unspeakable evil into the world, and he must find a way to defeat these forces or face the death of everything he loves. A creative, diabolical, and cool thriller - so spellbinding that I just had to stay up and finish reading it to make sure that the main character made it through the night.
