

The outrageously inventive follow-up to *By the Blood of Heroes* from New York Times and USA Today bestseller Joseph Nassise! At the close of 1917, the Germans introduced a new type of gas, T-Leiche--corpse gas--a revolutionary weapon that changed the war. Instead of killing the living, T-Leiche resurrected the bodies of the dead. For those who survived the killing fields of France, the danger has only just begun. Veteran Michael Madman Burke and his company have just been assigned a daring new mission by the president himself: rescue the members of the British royal family. But Manfred von Richthofen, the undead Red Baron and newly self-appointed leader of Germany, is also determined to find the family. In the devastated, zombie-infested city of London, Burke and his men will face off in an unholy battle with their most formidable opponent yet: a team of infected super soldiers - shredders - who have greater speed and strength than their shambler predecessors. If they don't succeed, all of Britain will fall into undead enemy hands. I would argue Joseph Nassise is the most important thing to happen to zombies since Max Brooks, and that's no hyperbole... Madman Burke and his crew are about to take you to hell and back.-- Joe McKinney, author of *Dead City* and *Flesh Eaters*
