

Stewart Dubinsky knew his father had served in World War II. And he'd been told how David Dubin (as his father had Americanized the name that Stewart had later reclaimed) had rescued Stewart's mother from the horrors of the Balingen concentration camp. But when, after his father's death, he discovers a packet of wartime letters to a former fiancée and learns of his father's court-martial and imprisonment, he is plunged into the mystery of his family's secret history and is driven to uncover the truth about this enigmatic, distant man who always refused to talk about his war. As he pieces together his father's past through military archives, letters, and, finally, notes from a memoir his father wrote in prison, secretly preserved by the officer who defended him, Stewart starts to assemble a dramatic and baffling chain of events. Reconstructing the terrible events and agonizing choices his father faced on the battlefield, in the courtroom, and in love, Stewart gains a closer understanding of his past, of his father's character, and of the brutal nature of war itself.
