

In Dale Brown's *Puppet Master*, intelligent machines take center stage as America battles the Russian mafia in Eastern Europe. Louis Massina is revolutionizing the field of robotics. His technological wonders are capable of locating disaster survivors, preventing nuclear meltdowns, and replacing missing limbs. After one of Massina's creations makes a miraculous rescue, an FBI agent recruits him to pursue criminals running a massive financial scam and not coincidentally, suspected of killing the agent's brother. Massina agrees to deploy a surveillance bot that uses artificial intelligence to follow its target. But when he's thrust into a dangerous conspiracy, the billionaire inventor decides to take matters into his own hands, unleashing the greatest cyber-weapons in the world and becoming the Puppet Master.

Dating Cary Grant, *Le Roman Experimental* (1890) (French Edition), *Claimed (True Alpha 6) : New Adult Paranormal Romance*, *The young Christian; or, the pleasantness of early piety*.
