"I loved Mark Whiteways Lodestone series, and I was delighted to find this fourth book, Seeds Across the Sky. Whiteway rekindles my love for a good scifi story with his brilliant work, and I found every bit of it to be must-read material. Pages turned until there were no more, and I still find myself hoping that I'll get to read another!" I have now read my fourth Mark Whiteway book, and can't wait to dig into the fifth, sixth, and upteenth as his career segues onto every mainstream scifi scene I can think of, and likely quite a few more that I can't. My thanks to Mr. Whiteway, and best wishes for continued excellence. This book should be a NY Times bestseller!

The first Lodestone trilogy saw Keris of the Kelanni join a ragtag band to combat the "alien"™ invasion of her world. Five turns of the season have now passed. Keris receives a disturbing report of the theft of an ancient artefact. The perpetrator? Alexander McCann, the last human left on Kelanni! When she tracks him down in a liquor den, the drunken McCann spins a fantastical tale. An ancient sphere recording claims that her people, the Kelanni, are alien invaders just as the humans were. Worse yet it tells of Ash, an all-powerful alien being, who almost destroyed her world in the distant past. Now sinister forces are plotting Ash's return. Accompanied by McCann, Keris must travel to the ancient ruined city of Gal Mador, uncover the truth of her people's dark past, and find a way to defeat an invincible alien foe... Continue your adventure with the compelling 4th book in the critically acclaimed Lodestone Series!
