

She's always had a crush on the man in charge ... Janie's developed a few bad habits like skipping classes and giving guys too much attention. All that's about to change when she gets caught with a mouthful by the man of the house. Janie's always had a crush on him, and she can't seem to help it, because he is a well-built construction worker with a ripped body. But the man in charge decides to take matters (and Janie) into his own hands and teach his naughty brat a lesson. He's going to give Janie something the guys could never give her, her first experience. Can she handle it? There's more about this taboo tale, if you look inside!
