Thirteen experiments about the six simple machines -- the lever, wheel and axle, pulley, inclined plane, wedge and screw -- teach kids about basic science. Full-color photographs and step-by-step instructions clearly explain each activity, so that kids can make the most of the machines with minimal help from adults. Part of the Starting with Science series, Simple Machines encourages children to have fun as they learn basic science and fills a need for primary-level science resources.

Shadow Dance: Book One of the Shadow Saga, ECG Pocket Guide (Pocket Brain) - ECG Interpretation, Walking Heartbreak (The Indie Rockers) (Volume 1), Sodome Et Gomorrhe 1 (Garnier-Flammarion) (French Edition), Introducing Cellular Communications: The New Mobile Telephone System, From The Earth To The Moon: Direct In Ninety-Seven Hours And Twenty Minutes, And A Trip Round It (1890),
