

“If his seed cannot make you swell, then who better to make a substitute?” It’s been three years since Jacob’s closest relative, Esau, married dutiful and lovely Silence, and yet they remain childless. Their parents back in England are beginning to question the couple’s faith, but Jason knows better. He has a plan to give his sister-in-law the baby she so desperately longs for. In this steamy story set in the Puritan era, Jacob surprises Silence and puts his plan into action. Will she have other ideas? Will their coupling be one of utility, or lust? Excerpts: Wasn’t Tamar willing to do whatever was necessary to assure the continuation of her family’s line? She humiliated herself by posing as a prostitute in order to couple with the patriarch of her family and thereby keep him from being humiliated. His parents had already started to whisper about Esau and Silence’s continued childlessness. If it persisted he worried that they would want him to divorce Silence, or that they might doubt his faith. He’d seen the sadness growing day by day in Silence as she prayed each night that she was an empty vessel, and begged God to fill her up with a child. Maybe this was one of those times when something sinful was the right thing to do? He’d lived with Esau and his wife long enough to see that they weren’t lacking in children because of a lack of trying or understanding the more earthly parts of the act. Esau, he was certain, knew what was necessary, and it was clear that he had given Silence all the necessary understanding of the physical act that was needed. He hated to see the two of them doubt and suffer. Both were good-hearted and devout. Esau had been his rock of faith growing up. It agonized him to see two such dear people hurting. And so Jacob lay abed mornings when he woke early, and wrestled with his sinful thoughts. Sometimes their presence had such strength that it reflected in his physical form, despite his efforts to push the thoughts from his mind and the uncomfortable swelling from his shameful parts. This morning, however, he could not still the thoughts, and the more he tried to banish the damnable imaginings from his mind... With a struggle he turned his thoughts to the rest of the day and the extra tasks at hand to help fill in for Esau’s absence. And yet these thoughts only brought his mind back to the notable absence of a child in their house and the cold absence next to Silence, just up the stairs in the bed she normally shared with her husband. He wasn’t even aware of willing himself to do so, but before he even understood what he was doing he rose from the narrow wooden bed and began to silently slip up the stairs. Well-built they were, and allowed his passage upon them with nary a creak to wake Silence. Jacob reassured himself that he would just slip into the bed next to her and keep them both warm. Goodness knows they’d spent half the long, terrible, winter sleeping three to the bed and doing just that. “Her skin smelled intoxicating, which surprised him because he knew that she was a faithful girl who didn’t fall prey to any vanities, so he knew it wasn’t perfume. But the smell intoxicated him, regardless, with a clean-smelling musk. Forgotten was his resolution simply to keep her warm in the chilly spring morning. He pulled his body away from hers just enough to fit his hand between them” (For more excerpts, take a peek inside the book. The contents are just too hot to post here!)
