

Snow always knew she wasn't cut out for ruling. She ran away from Everworth years ago and never looked back. Now she lives happily in the woods with her five shifter-males, but her past comes back to haunt her. Her sister has ruled Everworth with an iron fist since Snow's disappearance, but the villagers want more. The only way Rayna can gain control of her people is to show them that their precious princess isn't all she's cracked up to be. What better way than convincing the people that her sister is a huge freak? When Rayna comes to find Snow to get her proof, though, she's captured by a lone wolf who wants to play with her for a bit before taking a juicy bite. **This story is for adults only and features spanking, menage, tied-up princesses, dubious consent, and rough play. If you like the darker things in life, this story is for you.**
