

One of only eleven books selected by the editors of BioScience, the flagship magazine of the American Institute of Biological Sciences, for its Fall 2008 Focus on books on evolution and adaptation for young scientists, *Stones & Bones* sketches the story of evolution in seventeen verses. Through words and illustrations readers will find answers to questions such as, when did the Age of Mammals begin and what is it called? When did the first horses appear on earth? The first whales? What is the name and date of Darwin's revolutionary book on evolution? When did the earth begin to form? And many more. From the pages of *Stones & Bones*: About sixty million years ago; no, make that sixty five, with the; Cenozoic Age; the age of mammals would arrive; There were mastodons and woolly . . . Beautifully illustrated in full color. For children of all ages. Also includes a CD of *Stones & Bones the Song* and a bonus recording of *The Song of the Meadowlark*, recipient of the award for Outstanding Achievement in Songwriting (Lyrics) from the Great American Song Contest in 2004.

Six Pillars for the Believer: Volume 1: Insights on Ephesians, Teen Suicide: Too Young to Die (Issues in Focus), An Astronaut's Guide to Life on Earth: What Going to Space Taught Me About Ingenuity, Determination, and Being Prepared for Anything, Emerging Innovations in Agile Software Development (Advances in Systems Analysis, Software Engineering, and High Performance Computing), Rideau, Jadde: World of Skulls (Volume 3), Death and Eternal Life, MCSE: Windows 2000 Network Security Design Study Guide Exam 70-220 (With CD-ROM), The Baby Bistro Cookbook: Healthy, Delicious Cuisine for Babies, Toddlers, and You,
