

Northern Afghanistan. Mostly peaceful region compared to the southern regions. Thousands of coalition forces, NATO troops call this area their temporary home. But what happens when the war on terror takes a twist to this quiet area when the very ones assigned to protect us, turn on us for greed. Garrett Mac MacCormack takes a white knuckle gripping ride throughout this usually peaceful region to uncover a plot so sinister, so deadly, that it will go down in the history books forever. Can he uncover and expose the plot and murderous people behind it before its too late? Author Martin Fletcher weaves a tale of action, masterfully blended with events of his own years spent in Afghanistan as a US military contractor.
