

The original texts, which are the basis of the study of the Celtic Shamanic tradition, are so often missing from the contemporary practical books on Celtic subjects which fill the shops today. As well as familiar stories, this collection includes texts last translated in rare 19th century journals. The scope of the material ranges through the entire spectrum of Celtic mythology, from the adventures of heroes, to love stories, with tales of magic, warfare, the Otherworld, Faery traditions, shapeshifting and fantastic voyages to strange lands. There is also an introductory overview by the authors, extensive bibliography and resource list and indexes of people, places and themes.
