

He expected peace, but it had not come. Would God require something from him for the secret he had kept for more than 40 years? One man dies, another lives through the gift of a transplanted heart. As the recipient heals, memories he was never aware of come to him in dreams and in bright flashes of recognition that have no past. As the heart memories become more vivid, Mike Stone begins to understand that the secret imbedded in his new heart can destroy the very person responsible for saving his life. After years of hard living, Mike has experienced a literal change of heart. Passionately in love for the first time in his life, he is desperate to survive and to redeem the recklessness of his youth. But as he follows the trail of memories encoded in the donated heart and wrestles with issues of integrity and forgiveness, someone else seems determined to make certain the secret is never revealed. Torn between his new found values and a desire to protect his family from harm, Mike must decide if exposing the truth is worth taking the risk. Set in the fast-paced, power hungry climate of Washington, D.C., this gripping new novel combines political intrigue with passion and danger while unraveling the mystery behind a brotherly pact that threatens all in its path. In James Michael Pratt's story of political intrigue, the real hero is one good heart. Pratt deftly shows how consequences follow all decisions, and how one heart ripples through time to redeem even the fallen. A fast paced page turner. Highly recommended. -Senator Orrin Hatch, Utah
