

Includes pictures and an extensive section on Dostoevsky's life and works. After spending several years in a sanatorium recovering from an illness that caused him to lose his memory and ability to reason, Prince Myshkin arrives in St. Petersburg and is at once confronted with the stark realities of life in the Russian capital—from greed, murder, and nihilism to passion, vanity, and love. Mocked for his childlike naivety yet valued for his openness and understanding, Prince Myshkin finds himself entangled with two women in a position he cannot bring himself to resolve. Dostoevsky, who wrote that in the character of Prince Myshkin he hoped to portray a wholly virtuous man, shows the workings of the human mind and our relationships with others in all their complex and contradictory nature.
