

Science and religion have always been considered mutually exclusive concepts, but are they really? Philosopher Ken Wilber shows how we might begin to think about science and religion in ways that allow for their reconciliation, on terms acceptable to both camps. Science is one of the most profound methods humans have devised for divining truth, and religion focuses on discerning meaning. Wilber shows that not only is science compatible with the world's religions, it is indeed necessary to unite the two. He presents an elegant and accessible program which is breathtaking in its scope - one that cannot fail to change the way you look at your world.

GRE Word List with Audio MP3 Download and Web Software for Systematic Repetition: For High GRE Verbal Score, Deaf (Senses Series Book 2), The Topline Summary of Daniel Golemans Emotional Intelligence - Why It May Matter More than IQ (Topline Summaries), Caribbean Island: Autor del inquietante titulo de suspense El Circulo (Spanish Edition), The Pillars of Sand (Echoes of Empire), Dance Me a Story: Twelve Tales from the Classic Ballets, Essentials of Therapeutic Drug Monitoring (v. 2), The Beast in the Jungle,

Ever since the Copernican revolution, the battle lines between science and religion have been drawn. In succeeding generations, science and religion have .
