

The Words is the first volume of the Risale-i Nur and consist of thirty-three independent parts or "Words"™, which explain and prove the fundamentals of Belief, including its myriad virtues and advantages. Included here are exposition of the Divine Names and Attributes in creation, the resurrection of the dead and the Hereafter, Prophethood and the Ascension, the Miraculousness of the Ouran, the angels, the immorality of man's spirit, Divine Determining (fate or destiny), together with cogent discussion on the true nature of man and the universe, The wisdom of the specified times of the five daily prayers, and man's fundamental and innate need to worship Allah. Each subject is explained with comparisons and allegories, and demonstrated with reasoned arguments and logical proofs. The most profound aspects of the truths of Iman, are explained in a way that everyone can understand easily. This work responds to the attacks against the Ouran in the name of science and philosophy, and demonstrates the rationality of belief in Allah. It shows beyond any reasonable doubt that man's happiness and success both in this world and the next only lie in belief in Allah and knowledge of Allah.
