

For two millennia, mankind expanded throughout the stars, becoming bigger, stronger – eventually covering five percent of the galaxy. Then the Ga came – a race of catlike beings bent on conquering and enslaving other species in an effort to expand their military might and galactic dominance. The Ga have bigger ships, better weapons, multitudes more manpower, more advanced technology, and a social structure made for war. All humanity has is a history of ingenuity and survival. Will humanity survive the coming battles that will determine their fate, as well as the fate of all the races in the Milky Way? Warlords Invasion is about military men and women in a conflict engulfing tens of thousands of light years – in interstellar space, inside a star system, on planets and space stations, and within the warships themselves.
