

Maps and digitized map data provide information for a broad range of applications, from business and Government, to engineering and military, to research and leisure. The new edition of the highly respected World Mapping Today is an essential reference for librarians and anyone concerned with the production, acquisition, distribution or use of maps and other forms of spatial data. World Mapping Today recognizes the inherent difficulties in finding out about the availability of maps and other forms of spatial data. Building on the strengths of the first edition, the book has been entirely rewritten and greatly expanded and now includes: New reviews on the status of world mapping and the problems and possibilities of map and data acquisition in the electronic age Descriptions of mapping in individual countries contain information about both conventional and digital cartography Catalogue sections covering a broad range of material, both topographic and thematic In addition there are lists of publishers addresses for each country, now also including telephone and fax numbers, e-mail addresses and the URLs of useful websites. This edition also includes 350 graphic indexes of major map series, of which 150 are entirely new and all of which have been specially redrawn.

Kundalini: The Evolutionary Energy in Man, How They Succeeded: Life Stories of Successful Men Told by Themselves, Moral Hazard (Southern Fraud Thriller Book 4), The Great Degeneration: How Institutions Decay and Economies Die, True Romance, A Christmas Carol, Starting Point (Turning Point), A Smaller Ancient History Of The East: From The Earliest Times To The Conquest By Alexander The Great (1871), Non-Euclidean Geometry (Dover Books on Mathematics),
